About One-Time Password (OTP)

To prevent access by unauthorized users, an OTP is required when accessing from a different environment than the first time you accessed the usage site.

Example 1: After checking the display on a computer, displayed it on a mobile device when actually using it

Example 2: Changed the mobile device that opened the usage site

The screenshot shows a web page with a large '404' error code at the top. Below it, there's a section titled 'E-ticket' and 'One-time password'. The text says: 'Your access environment has changed. For security protection, a one-time password will be sent. Please register your email address to receive the one-time password.' There is an input field for the email address and a green 'Submit' button at the bottom.
